- Skills Management

## PROFILE SUMMARY

I am a third-year student at PHINMA University of Pangasinan with a strong interest in UI/UX design and front-end development. I enjoy creating visually engaging, user-friendly digital experiences across web, mobile, and interactive platforms. I am passionate about understanding user behavior, designing intuitive interfaces, and continuously improving my skills to keep up with trends in the fast-paced tech industry.

## EDUCATION

### BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

PHINMA University of Pangasinan | 2023 - Present

### SENIOR HIGH SCHOOL

PHINMA University of Pangasinan | 2021 - 2023

### JUNIOR HIGH SCHOOL

St. Michael School By The Sea Inc. | 2017 - 2021

## MAJOR PROJECTS

### SNEAKHUB

First Year, 2nd Semester, Final Project

#### HTML/CSS/JAVASCRIPT

- SneakHub is an online shoe catalog offering a wide selection of footwear for all ages. It features sneakers, sporty, walking, and fashion shoes but doesn't include e-commerce. The platform allows users to easily explore and find the ideal pair for the whole family.

### PETPAL

Second Year, 1st Semester, Final Project

#### UNITY/C#/PHP

- "Pet Pal" is an interactive 2D 8 bit mobile game where players adopt and care for a virtual pet. Players will be responsible for nurturing their pet by feeding, grooming, playing, and ensuring its overall well-being. The game will be designed to offer a blend of fun, responsibility, and creativity, appealing to a broad audience, especially children and casual gamers.

### BASKIT

Second Year, 2nd Semester, Final Project

#### ANDROID STUDIO / JETPACK COMPOSE/PHP

- Baskit is an innovative app designed to streamline your local market shopping experience. With Baskit, users can easily create and manage their grocery lists by selecting products from a wide range of options. Once their list is complete, they simply generate a unique code and present it in-store to quickly pick up their items.
